"CDW is proud of our coworkers' extraordinary efforts that produced record results for both the fourth quarter and year. Our successful business model integrates our relationship-based account managers, Web site, customer service and distribution capabilities in the business marketplace, which together

enables us to gain market share, while producing superior financial results. We are confident that this "clicks and people" strategy with a high level of service is right for the future. CDW strives to foster a culture of respect and job satisfaction for all our coworkers so they can provide the best customer service in the industry. During the fourth quarter, we opened our on-site child care and fitness center and were named one of Fortune's 100 Best Companies to Work for in America for the second consecutive year. We are extremely proud of the value that we create for our coworkers and our customers. As we enter 2000, we are expanding our salesforce, e-Business activities, branding efforts and distribution capacity to perpetuate growth in market share and profits."

--- Michael P. Krasny, Chairman and Chief Executive Officer

Vernon Hills, Illinois, January 25, 2000--- CDW Computer Centers, Inc. (Nasdaq: CDWC) today announced record sales and earnings for the fourth quarter and year ended December 31, 1999.

Net sales for the fourth quarter increased 55 percent to \$741.3 million from \$477.2 million in the same period of 1998. Net income for the quarter rose 63 percent to \$29.9 million from \$18.3 million in the fourth quarter of 1998. Diluted earnings per share increased 60 percent to \$0.67 in the fourth quarter of 1999 from \$0.42 in the same period of 1998.

Net sales for the year ended December 31, 1999 increased 48 percent to \$2.561 billion from \$1.733 billion in the year ended 1998. Net income for the year ended December 31, 1999 was \$98.1 million, a 49 percent increase over \$65.8 million reported in 1998. Diluted earnings per share of \$2.22 in 1999 increased 47 percent from \$1.51 in 1998.

All earnings per share amounts reflect the 2-for-1 stock split effected in the form of a stock dividend, which was paid on May 19, 1999.

"Our focus on providing multibrand technology solutions in the business marketplace is working. Commercial sales increased 65 percent and account for more than 93 percent of total sales. Sales per active commercial account increased 40 percent in the fourth quarter of 1999 compared to the same period of 1998. Our knowledgeable sales account managers, customized customer Web sites and outstanding customer service provide the personal, yet high tech experience that commercial customers demand. We did not experience a slowdown in demand relating to Y2K issues, as our small to medium business ("SMB") customers purchase the mission critical products necessary to support their day-to-day business needs," said Michael P. Krasny, Chairman and Chief Executive Officer.

Add-on boards/memory, data storage devices, notebooks, networking and communication and desktop computers were the fastest-growing product categories, all with sales growth rates exceeding 50 percent. Notebook computers, which remained the largest product category at 21 percent of net sales, increased 71 percent in net sales dollars compared to the fourth quarter of 1998. Desktop computers, which include servers, increased over 53 percent. "Product availability was good throughout the quarter with no significant product allocation issues," said Gregory Zeman, CDW's president.

Zeman added, "The aggressive addition of account managers initiated in 1998 continues to pay dividends as they expand and solidify relationships with customers. We will implement our growth strategy in 2000 by continuing to aggressively hire account managers and support them with marketing activities directed at increasing CDW's brand awareness and visibility. We plan to increase our sales force by approximately 30 percent in 2000 and to open our downtown Chicago sales office in the second quarter to accommodate growth."

Our Web site www.cdw.com continues to evolve as an integral part of our business model, and an extension of our account managers' relationships with customers. In the fourth quarter, direct Web sales of \$53.8 million grew 161 percent over the fourth quarter of 1998 and 19 percent over the third quarter of 1999. "Our customized customer Web site program, CDW@work™, is an excellent complement to our business model, providing our customers the information and tools they need to make their jobs easier," said Zeman.

Gross profit margin was 12.9 percent of net sales in the fourth quarter of 1999, versus 12.7 percent in the prior year quarter. The Company's gross profit as a percentage of net sales may vary on a

quarterly basis based upon vendor support programs, including inventory price protection policies, product mix, pricing strategies, market conditions and other factors. As a result, there is no certainty that the Company will be able to sustain the gross profit margin levels achieved in recent quarters.

Selling and administrative expenses, as a percentage of net sales, decreased to 6.4 percent in the fourth quarter of 1999 from 6.5 percent in the same period of 1998. On a forward-looking basis, selling and administrative costs may increase as a percentage of net sales due to investments in new sales account managers, marketing initiatives and new facilities.

Annualized inventory turnover decreased to approximately 24 times for the quarter, versus 28 in the fourth quarter of 1998. Working capital as of December 31, 1999 was \$340.1 million, including approximately \$83.0 million in cash, cash equivalents and marketable securities.

The statements in this release concerning the Company's gross margin percentage and selling and administrative costs and other statements of a non-historical basis (including statements regarding implementing strategies for future growth, the ability of the Company to sustain its model of profitable growth and the expected benefits of the Company's e-Business strategy) are forward-looking statements that involve certain risks and uncertainties. Such risks and uncertainties include the continued acceptance of the Company's distribution channel by vendors and customers, the timely availability and acceptance of new products, continuation of key vendor relationships and support programs and the ability of the Company to hire and retain qualified account managers.
